113.99€

High-Quality Short Gas Lift for noblechairs

The noblechairs short gas lift piston is the perfect solution for users who find the standard seat height of their gaming chair a bit too high. This replacement part allows for a lower seating position, ensuring better ergonomics and comfort, especially for shorter users or those using desks with lower clearance. Despite its shorter length, it maintains the same high-quality construction and reliability as the original components.

Features:

- Short version designed to reduce the minimum and maximum seat height.
- Certified Safety Class 4 gas lift for maximum durability and weight support.
- Provides smooth height adjustment and reliable performance over time.
