Aprašymas

Freewell Case for iPhone 16 Pro

The Freewell Pro Filmmaker Case for iPhone 16 Pro is designed for photographers and filmmakers who want to expand their smartphone’s capabilities. The case features a 17 mm thread, compatible with lenses that use this standard, as well as the Freewell Sherpa magnetic filter mounting system, which allows for quick attachment of VND, CPL, and Mist filters. Additionally, the case is fully compatible with MagSafe technology, allowing it to work with magnetic chargers and accessories without having to remove the case. This is a practical solution for those who want to conveniently use additional photography accessories while recording video and taking photos.

More possibilities thanks to the 17 mm thread

The integrated 17 mm thread allows you to mount a wide range of compatible mobile lenses without the need for additional adapters. This lets you use wide-angle, macro, telephoto, or anamorphic lenses, tailoring your setup to the type of shots you’re capturing. Quick accessory attachment streamlines your workflow and allows you to switch efficiently between different photography and videography scenarios. This solution is designed for users who expect greater freedom when creating mobile content.

Compatibility with Freewell Sherpa Filters

The case is compatible with Freewell Sherpa magnetic filters, which can be attached in about a second. This makes changing filters quick and convenient, making it easy to adapt your setup to changing lighting conditions. Support for VND, CPL, and Mist filters expands your creative possibilities without complicated setup. The magnetic mounting system makes using additional accessories convenient whether you’re shooting on location or working in the studio.

MagSafe and Functional Design

The case is compatible with MagSafe technology, so it works seamlessly with magnetic chargers, power banks, mounts, and wallets. The case is made of polycarbonate (PC) and iron (Fe) components, which enable the magnetic filter mounting system and ensure MagSafe compatibility.
