ANMITE A160W24H 16" Portable Monitor

The ANMITE A160W24H portable monitor is a 16-inch model with an IPS panel and 2.5K (2560 × 1600) resolution, delivering detailed images and wide 178° viewing angles. With a refresh rate of up to 144 Hz via USB-C and a response time of 1 ms, it's perfect for both work and gaming. A brightness of 500 cd/m² enhances comfort in various lighting conditions, and the slim, lightweight design—ranging from 0.6 to 1.3 cm in thickness and weighing 0.81 kg—makes it easy to take the monitor virtually anywhere.

One monitor, many possibilities

The ANMITE A160W24H stands out for its broad compatibility with various devices. It can be connected to laptops using a single USB-C cable, as well as to computers, game consoles, and other

devices equipped with an HDMI port. The monitor works with smartphones that support Type-C connections, allowing you to conveniently view movies and play games on a larger screen. It also supports Huawei EMUI PC and Samsung DeX modes, allowing you to use an extended desktop environment with a keyboard and mouse, and additionally supports reverse charging for compatible phones.

Smooth Display for Work and Entertainment

The IPS LED-backlit panel ensures natural colors and a clear image regardless of the viewing angle. A refresh rate of up to 144 Hz via USB-C and up to 120 Hz via HDMI ensures smooth display of dynamic scenes, which will be appreciated by both gamers and multimedia professionals. A fast 1 ms response time further reduces motion blur, enhancing comfort during fast-paced gaming and video viewing.

Convenient Connectivity and Practical Design

The monitor features two USB-C ports, a Mini HDMI connector, and a 3.5 mm audio jack, making it easy to adapt the connection method to your existing equipment. For devices not equipped with a full-function USB-C port, you can use the Mini HDMI connection with additional power supplied via USB-C; however, the manufacturer recommends a PD power adapter with at least 30 W for stable operation. The integrated, foldable stand allows you to comfortably position the screen at the right angle, and the ABS plastic casing with a carbon-fiber-like texture emphasizes the device's modern design.

Everyday Comfort

The A160W24H model is equipped with two built-in stereo speakers that deliver rich, clear sound and a spatial 3D effect. The slim bezels around the screen increase your workspace and enhance the monitor's usability, while its compact dimensions of 35.5 × 23.7 × 1.3 cm mean it fits easily into a bag alongside your laptop. It's a practical solution for people who need an additional screen for work, study, or entertainment.
