Next-Generation Performance and Architecture

Powered by the NVIDIA GeForce RTX 5070 chipset and featuring 12 GB of ultra-fast GDDR7 memory, this card is built upon a 192-bit memory bus, providing the bandwidth necessary for high-resolution textures and complex rendering tasks. Enjoy cutting-edge features like hardware-accelerated Ray Tracing and DLSS technology, crucial for realistic visuals and high frame rates.

- **Graphics Processor:** NVIDIA GeForce RTX 5070.
- **Memory Configuration:** 12 GB GDDR7 ultra-speed memory.
- **Interface Standard:** PCI Express x16 5.0, offering maximum throughput for modern systems.
- **Maximum Resolution:** Supports stunning 7680 x 4320 (8K) visuals.
- **API Support:** Full compatibility with DirectX 12 Ultimate and OpenGL 4.6 for the latest titles and creative applications.

Efficient VENTUS 2X Cooling System

The VENTUS 2X thermal design utilizes two high-quality fans to maintain low operating temperatures under heavy load. This active cooling solution ensures consistent boost clock speeds and reliability, preventing thermal throttling while maintaining an acoustically manageable profile, making it the perfect choice for balanced builds.

Comprehensive Connectivity

Connect to multiple high-resolution displays effortlessly. The card provides modern outputs essential for advanced gaming setups and professional workstations.

- 3 x DisplayPort (2.1b) outputs.
- 1 x HDMI (2.1b) output.
- Power Consumption (TDP): 250W.

MSI (Micro-Star International) is a global leader in high-performance computing hardware, renowned for producing robust, reliable, and technologically advanced components, particularly in the gaming sector.

Order this powerful MSI GeForce RTX 5070 VENTUS 2X OC today from ++SHOP++ and unlock the potential of your next-generation gaming rig.
