### Dell Pro Plus Earbuds (EB525)

Dell Pro Plus Earbuds are professional-grade true wireless earbuds that combine exceptional call quality, effective noise cancellation, and outstanding comfort. As the world's first earbuds to achieve Microsoft Teams Open Office certification, they deliver excellent voice quality even in open-plan offices and noisy environments. The AI-powered noise-cancelling microphone effectively filters background noise and focuses on your voice, ensuring clear communication wherever you work.

Adaptive ANC technology automatically adjusts noise cancellation based on your surroundings, while Enhanced Transparency Mode lets you hear environmental sounds naturally without the artificial or robotic audio often associated with transparency modes. Four ear tip sizes provide a secure and comfortable fit throughout the day, while the IP54-rated design protects against dust and water splashes.
