

Solar lamp Superfire FF5-E, 897W, 2000lm, 20000mAh

Modelis: FF5-E

Gamintojas: SUPERFIRE

EAN: 6956362995727

Prekės kodas: 579417

114.99€

Superfire solar lamp

The Superfire lamp uses the sun's rays for power, and you can control it with the included remote control. You will successfully use it as a street, industrial or commercial lighting. It is made of damage-resistant materials and advanced PWM power technology, so it can operate in low temperature environments.

Smart solutions

The lamp will turn on spontaneously after dark, thus ensuring the safety of passersby, and then turn off after dawn. Choose solutions that do not require your intervention. Let yourself be helped!

Ecologically

The device uses polysilicon solar panels that save energy consumption and protect the environment. FF5-E will also allow you to save on electricity bills.

Remote control included

An infrared remote control is included, which allows you to adjust the device's operating time for 3/5/8 hours. After the set time, the FF5-E will automatically turn off, saving energy.

Performance

The device is equipped with a 6V rechargeable battery that charges the lamp at night. It is distinguished by its high capacity, stable performance and long operating time. It is also equipped with an LED chip, which increases the performance and durability of the lamp.

Water resistant

The product is IP65 water and dust resistant, so it is not intimidated by bad weather conditions. The high-quality tempered glass is distinguished by its high hardness and excellent light transmission. As a result, the light it casts is bright and natural.

Included

- lamp
- remote control
- lamp holder
- solar panel holder
- screws
- instruction manual

Manufacturer	Superfire
Model	FF5-E
Power	897W
