273.99€

70mai Dash Cam 4K Omni

The Next-Gen 360° Dash Cam with Dual Brilliance.

Hall Effect Sensors, Immersive 360° Full-View

With a 360° rotating design powered by dual Hall Effect sensors and the equipped magnetic system, the 4K Omni delivers precise lens positioning and flawless rotating, ensuring zero blind spots while doubling as a fun travel vlog recorder to capture every moment of your journey.

Leading the True 4K Era

Bring true 4K clarity to life with the Sony IMX678 technology and a cutting-edge 12nm quad-core processor. This powerful combination delivers exceptional performance, energy efficiency, and stunning 4K visuals, setting a new imaging standard.

4K 60FPS: Smooth, Vivid, Unmatched

Even at high speeds, it flawlessly captures every moment with ultra-smooth precision. For those seeking top-tier image quality, the 4K Omni delivers a professional-grade experience, transforming every drive into a cinematic journey.

Dual Vision, Dual Brilliance

The 4K Omni brings dual-channel functionality with HDR on both cameras for crystal-clear footage in any lighting. When a collision is detected, front and rear cameras record a 30-second video simultaneously, while time-lapse recording extends to the rear for seamless event playback.

70mai Lumi Vision

An industry-first technology designed for parking surveillance that ensures clear visibility in near-total darkness, solving common issues of unclear video playback in low-light conditions like dim parking garages or pitch-black streets.

AI 2.0: Precision in Motion, Protection in Action

The next-generation AI Motion Detection 2.0, driven by our latest self-developed AI algorithm and dual Hall Effect Sensors, offers enhanced silky-smooth rotation and precise human targeting.

Buffered Emergency Recording, Recording Before It Matters

The upgraded pre-recording feature extends the buffer beyond 10 seconds, up to 3 minutes before an incident (depends on the collision's timing within the loop recording and the loop duration setting), along with footage during and 30 seconds after. These videos are stored in an exclusive "Event Video" folder, ensuring no vital evidence is missed.

4G LTE Connectivity

The 4G connectivity ensures uninterrupted communication with your vehicle from any location.

Seamless Data Flow, Speed at Its Finest

Upgrade with Wi-Fi 6 5GHz, delivering download speeds of up to 20MB/s. Now, you can download a 200MB video in just 10 seconds!

Voice Control & MaiX In-Car AI Mate
