EEM2-SC USB-C 10Gbps - M.2 NVMe SSD RIBBED box

External USB-C 10Gbps metal box for M.2 NVMe SSD disks. Screwless opening.

Aluminum external AXAGON EEM2-SC RIBBED box with USB 10Gbps interface designed for M.2 NVMe SSDs. A stable and fast connection is ensured by a reversible USB-C connector. In the package you will find a USB-C -> USB-C cable to connect the box to your computer.

Thanks to the USB 10Gbps interface, the transmission rate is up to 10 Gb/s. The external M.2 box supports modern features such as UASP, TRIM and enables reading S.M.A.R.T. disk status monitoring information.

The advantage of the box is the attachment of four different lengths of SSD cards - 30, 42, 60 and 80 mm. M.2 drives can be single-sided or double-sided. The box does not limit the capacity of inserted SSD.

Screwless opening makes installation and removal of the M.2 SSD drive easier. This makes disk replacement quick and easy, significantly speeding up data migration, testing, cloning, and storage expansion.

The ribbed design and aluminum casing of the box ensure excellent cooling of the inserted M.2 SSD drive. This extends its service life and also prevents the disk from slowing down, so-called „Thermal Throttling“. The outer metal casing is black and prevents unwanted fingerprints.

By inserting the M.2 SSD in the box, you will easily create fast compact and universal external disk. The box can be used with computers and notebooks, as well as with mobile phones and tablets.
