92.99€

Freewell Filter Set for Insta360 Luna Ultra Standard Day (4 pcs.)

The Freewell Standard Day filter set was designed for the Insta360 Luna Ultra camera and allows you to achieve professional results when filming during the day. The set includes four filters—ND8, ND16, ND32, and ND64—which effectively reduce the amount of light reaching the sensors. This makes it easier to maintain the appropriate shutter speed, adjusted to the frame rate, which results in a natural, smooth motion blur effect and a more cinematic look to your footage.

Precise Fit and Comfortable Use

The filters are made of high-quality optical glass, which ensures effective exposure control without compromising image quality. They are designed to fit the camera lens perfectly—they mount quickly
