Freewell Filter Set for Insta360 Luna Ultra Bright Day (4 pcs.)

The Freewell Bright Day Filter Set for the Insta360 Luna Ultra is designed for recording and photography in intense daylight. The set includes four hybrid filters—ND8/PL, ND16/PL, ND32/PL, and ND64/PL—which simultaneously limit the amount of light reaching the lens and reduce unwanted reflections. This makes it easier to achieve proper exposure, maintain a natural motion effect, and bring out color depth and higher contrast even in challenging lighting conditions.

Perfect Fit and Reliable Performance

The filters have been precisely engineered specifically for the Insta360 Luna Ultra, ensuring they perfectly match the device's dimensions and optical specifications. They effectively eliminate glare

from water, glass surfaces, or snow, improving the clarity and quality of the recorded footage. Additionally, their lightweight, micro-precision design does not interfere with the motorized mechanism responsible for roll and pitch movement, ensuring smooth camera operation and complete reliability during recording.
