Insta360 X4 Camera

Discover the limitless possibilities of video and photo capture with the Insta360 X4 camera! With photo resolutions of up to 72MP and the ability to record video in resolutions up to 8K, you'll be able to capture every detail. It offers a wide selection of modes for both photos and video, and its battery life lasts up to 135 minutes. It's the perfect choice for videography enthusiasts, travelers, vloggers, and anyone who wants to capture unforgettable moments in the highest quality!

The best image quality ever

Start creating amazing content that stands out from the crowd with the Insta360 X4! Using 360° mode, you can capture the beauty of the world around you in resolutions up to 8K. This allows you to capture richly detailed images that will amaze you with unparalleled clarity and depth unlike anything you've experienced before.

Higher frame rate = better image quality

Get ready for a true revolution in image quality! With a higher frame rate—60 FPS—you can enjoy smoother and sharper images in a single frame. The 5.7K60FPS recording mode is ideal for capturing dynamic sports or very fast-paced scenes. If you're dreaming of a cinematic slow-motion effect, switch your recording settings to 4K100FPS.

Adjust the perfect frame after recording

Capture the special moment, then choose the perfect frame! With AI-powered cropping tools in the Insta360 app, it takes just one click to create your dream shot. Now you'll never miss an important moment again!

Record from a third-person perspective

The Invisible Selfie Stick automatically disappears from your recordings, opening up a world of incredible third-person shots and drone-like angles that you can't achieve with other action cameras. Don't own a drone? No worries—from now on, you can enjoy professional shots even without one!

A New Dimension of Filming

The innovative HDR video mode not only enhances details but also provides excellent stabilization, perfect for recording extreme sports. Thanks to Active HDR, colors in bright and dark areas come to life in a way other action cameras simply can't achieve. Break the routine and capture your adventures in the best quality!

Capture the moment in all its glory

With the Insta360 X4, you can create exceptional 360° photos at a resolution of up to 72MP. Capture every moment with incredible clarity, where even the smallest detail comes to life. Your photos will radiate intense colors, capturing the full essence of every scene in a breathtaking way.

Smoother 4K60FPS footage

Get ready for an incredible action-packed adventure! With the Insta360 X4, you'll be able to capture extraordinary moments in even better quality. Using Single-Lens mode, you can record footage that's up to twice as smooth in 4K60FPS. But that's not all! If you dream of an even wider panorama, try MaxView in FreeFrame Video mode, offering an incredible 170° field of view with enhanced 4K30FPS.

Be the center of attention with ME mode

Become the star of your own movie! Use ME mode to capture the most exciting moments from a unique perspective. The ability to record in 4K at 30 frames per second or 2.7K at 120 frames per second ensures your videos are crisp and full of detail, no matter where you are. It's the perfect solution for outdoor activities like cycling or snowboarding!

Extreme footage without shake

The Insta360 X4 delivers unique results even in the toughest conditions—it performs flawlessly on rough roads and choppy waves alike. Thanks to patented FlowState stabilization technology, your footage will always be exceptionally smooth and of the highest quality, no matter how extreme your adventure gets. With the X4, you can count on reliability in any conditions!

360° Horizon Lock

Forget about limitations and feel the thrill of performing crazy stunts while paragliding or on exciting rollercoaster rides, knowing your footage will be perfectly balanced. Discover absolute stability and endless possibilities that will make your adventures even more unforgettable!

Protecting Your Lens

The kit includes two lens covers to keep your camera in great condition for longer. The standard cover offers exceptionally easy installation—you can remove it in a flash if needed! And for those who take safety seriously, a premium cover is available. Made of tempered glass, it's highly durable, scratch-resistant, and designed to preserve the best possible image quality.

No interruptions in recording

With the Insta360 X4, you don't have to worry about running out of power at the worst possible moments! The durable 2290 mAh battery allows for up to 135 minutes of continuous recording in 5.7K@30fps mode, giving you plenty of time to capture the most important moments—that's 67% longer than the X3 model. What's more, charging via the USB-C port lets you get back to action in just 60 minutes.

Capture the beauty of the underwater world

Ready for unforgettable adventures? The X4 opens the door to the underwater world for you. Water resistance up to 10 meters right from the first use lets you explore the underwater world without any limits. Want to dive even deeper? Simply place the camera in the Invisible Dive Case (sold separately) to capture moments at depths of up to 50 meters. The AquaVision 2.0 color corrector automatically adjusts colors, ensuring accurate color reproduction underwater.

Easier to use than you think

Operating the camera will be a breeze. The built-in 2.5-inch display made of durable Corning Gorilla Glass guarantees exceptional ease of use. But that's not all! You no longer need to touch the camera to start recording or take a photo—just raise your hand and start creating content in a simple and intuitive way. What's more, thanks to smart voice control, just say the word and the Insta360 X4 will do as you say.

Quick AI-powered video editing

Want to edit your video without any hassle? The AI-powered Insta360 app has everything you need! With the Quick Edit feature, you can position the camera exactly where you want it with just a few clicks. The AI algorithm will prepare a share-ready video for you in the blink of an eye, and with the effects available in Shot Lab, you can transform ordinary videos into extraordinary works of art.

Creative possibilities

The Insta360 X4 opens up a wide range of creative possibilities, offering a variety of recording modes. TimeShift mode lets you pause and extend key moments, creating stunning video sequences, while Bullet Time allows you to capture dynamic shots around you, giving the impression that time has frozen. With Timelapse mode, you can speed up time and watch the world change before your eyes!

Even more features

Thanks to the Auto Dash feature, you can use the Insta360 X4 as a true dashcam—simply connect the camera to an external power source, and it will automatically turn on and start recording in any mode. Loop Recording allows for automatic file overwriting, providing greater flexibility in managing card storage, and with Pre-recording, you can save 15- or 30-second clips backward, ensuring you never miss a single important moment.

For activity enthusiasts

The Insta360 X4 camera is the perfect tool for all active lifestyle enthusiasts! Thanks to integration with Garmin and Apple devices, you can enhance your videos with stats like GPS, speed, and power. The Motion ND effect lets you add cinematic blur to your shots without needing ND filters. Best of all, the camera is weather-resistant, handling temperatures as low as -20°C.
