EAN: 4897143172796

Prekės kodas: 580902

69.99€

Freewell Osmo Pocket 4/3 Xtra Muse Filter Set

The Freewell Osmo Pocket 4/3 Xtra Muse Filter Set is a practical set of accessories that lets you take full advantage of your camera's capabilities and achieve even better results when filming. The set includes a VND 1-5 filter, a Glow Mist 1/4 filter, and a CPL filter, giving you full control over exposure, image character, and color reproduction. The VND 1-5 filter allows you to precisely reduce the amount of light reaching the lens, making it easier to maintain cinematic shutter speed and aperture settings. The Black Mist 1/4 filter gently softens bright areas of the frame, creating a subtle cinematic glow, while the CPL filter effectively reduces glare and reflections, while improving contrast and color saturation.

Durable construction and instant installation

The filters are equipped with a magnetic QuickSwap system that allows you to attach and remove them instantly without the need for screws. The lightweight design does not interfere with gimbal
