Modelis: FW-SH-SPLITND

Gamintojas: FREEWELL

EAN: 4897143172789

Prekės kodas: 580904

93.99€

Freewell 3-in-1 Neutral Density Filter

The Freewell 3-in-1 Neutral Density Filter is a practical solution for creators who want to quickly adjust exposure to changing lighting conditions. A single filter offers three levels of light reduction (ND8, ND32, and ND64), allowing you to conveniently control the amount of light reaching the lens. It's an excellent choice for both shooting in direct sunlight and capturing smooth, professional-looking shots with natural motion blur.

Magnetic Mount

The magnetic mounting system allows you to attach and remove the filter in an instant—the entire process takes just about a second. This allows you to switch between the ND8, ND32, and ND64 filters without interrupting your work, while maintaining full control over exposure. This solution is designed for mobile creators who value speed and convenience while filming.

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo.
