Pagrindinės savybės

- ✓ A sleek design
- ✓ Remote access
- ✓ Indicator light for live CO2 readings
- ✓ Accessible from several devices

Aprašymas

Live in a healthier home with the help of the Smart Indoor Air Quality Monitor

Manage your indoor environment

Temperature, air quality, humidity and noise level: the Smart Indoor Air Quality Monitor provides key insights about your home in real-time as well as personalised tips.

Be alerted if there's a change in the air

The Indoor Monitor sends you a smartphone notification when there's a dip in your environment's air quality. Too much CO₂? It's time to open the windows! By pressing the top of the Monitor, you get a quick live summary of the air quality.

The perfect partner for a better night's sleep

Healthy air in your bedroom is crucial for a good night's sleep. Place a monitor in each room to make you more comfortable throughout your home.

Improve your work environment

Your surroundings have a direct impact on your concentration levels. With the Smart Indoor Air Quality Monitor, you can create a productive home-working environment.

Monitor the air quality in your home and create a healthy environment

Monitor the air quality in your home and create a healthy environment A healthy environment helps you feel great. Headaches, fatigue, allergies and asthma can all be caused by your surroundings. Analyse the key parameters of your home to live in a healthy space.

The Smart Indoor Air Quality Monitor is both sleek and effective at creating a healthy home

Our Smart Indoor Air Quality Monitor is compatible with HomeKit. You can also create automated scenes using the voice assistants.
