X-SENSE XS0D-MR61 Smoke Detector and Base Station Kit

Enhance safety in your home with a set of 6 XS0D-MR smoke detectors and a dedicated SBS50 base station. The detectors use photoelectric technology to effectively detect smoke, and thanks to integration with the Link+ Pro system, they can send notifications directly to your phone. Wireless communication allows you to connect up to 24 compatible devices into a single alarm network, so that when a hazard is detected, all alarms trigger simultaneously. A volume of at least 85 dB ensures you can hear the warning quickly, even in larger rooms.

Effective smoke detection

The XS0D-MR model is equipped with a photoelectric smoke sensor that effectively reacts to particles generated during smoldering fires. The device triggers a visual and audible alarm, helping

you respond quickly to the threat. The built-in Test/Silence button allows you to conveniently check the device's functionality and temporarily silence the alarm.

Base Station and App Notifications

The included SBS50 base station allows you to connect the alarm to the X-Sense Home Security app. This enables you to receive push notifications about detected threats, device status, or low battery levels. Using your smartphone, you can also test the device and share access with other household members. Additionally, you gain access to the event history.

Link+ Pro wireless alarm network

The system supports Link+ Pro technology, which allows you to create an extensive network of wireless alarms. When one device detects smoke, other compatible alarms in the network also activate an alert signal. You can connect up to 24 units, which works particularly well in larger homes and multi-level apartments.

Simple installation and reliable operation

The sensor can be mounted using screws or magnetic adhesive pads. The device is powered by a replaceable CR123A 3 V DC lithium battery, which has a lifespan of up to 5 years. The alarm also features a range of up to 500 m in open space.

Included in the set

- Base station
- Sensor x6
- Power adapter
- Power cable
- Mounting bracket
- Screws
- Wall anchors
- User manual
- CR123A battery (pre-installed)

Sensor

Manufacturer	X-SENSE
Model	XS0D-MR
Product name	Smoke detector
Power supply	1 × CR123A 3 V DC lithium battery (replaceable)
Battery life	Up to 5 years
Maximum service life	10 years
Sensor type	Photoelectric
Safety standards	EN 14604:2005 + AC:2008
Operating temperature	4.4°C to 37.8°C
Operating humidity	≤85% RH (non-condensing)
Alarm volume	≥ 85 dB at a distance of 3 m at 3.2 ±0.3 kHz
Silencing time	≤ 9 min
Operating band	869.25–869.35 MHz
Maximum RF power	10 mW
Maximum number of connected devices	24 wireless devices (compatible only with X-Sense Link+ Pro and Link+ wireless alarms)
Transmission range	Approx. 500 m in open space

Base station

Manufacturer	X-SENSE
Model	SBS50
Power supply	Input: 100–240 V AC 50/60 Hz Output: 5 V □ 1 A
Operating temperature	4.4°C to 37.8°C
Operating humidity	0–85% RH (non-condensing)

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Alarm volume	100 dB
App	X-Sense Home Security
Operating frequency	868.0–868.6 MHz (25 mW), 869.25–869.3 MHz (10 mW), 2400–2483.5 MHz (100 mW), 869.65–869.7 MHz (25 mW)
Maximum number of connected devices	50
Wi-Fi transmission range	Up to 50 m
Wireless protocol	IEEE 802.11 b/g/n
