portable monitor ensures you have a reliable secondary screen wherever you travel. The Full HD (1920x1080) IPS panel delivers stunning image clarity, accurate colours, and incredibly wide 178-degree viewing angles, supported by an impressive dynamic contrast ratio of 100,000,000:1.

Ultimate Portability and Simplified Connectivity

Designed for modern mobility, the ZenScreen MB166C features streamlined connectivity using only a single USB Type-C cable. This unique feature handles both power delivery and video signal transmission from your host device, minimizing cable clutter and ensuring a neater, more efficient workspace. The anti-glare screen enhances viewing in brightly lit environments, making it perfect for office setups, presentations, or remote work.

- **Single Cable Solution:** Power and video delivered via one reversible USB-C connection.
- **Ultra-Portable Design:** Weighs only 780 g with a slim 11.8 mm profile, fitting easily into any travel bag.
- **FHD IPS Display:** Crisp 1920 x 1080 resolution with wide 178° viewing angles for consistent image quality.
- **Automatic Orientation:** ASUS DisplayWidget software automatically switches the display between landscape and portrait modes when connected to a laptop, enhancing efficiency for document viewing or spreadsheets.
- **Versatile Mounting:** Features a 1/4" threaded hole at the rear for easy attachment to standard tripods or table mounts (tripod not included).

ASUS EyeCare Technology for Extended Use

The ZenScreen MB166C prioritizes user comfort during long work sessions. It features ASUS EyeCare Technology, which includes TÜV Rheinland-certified Flicker-Free technology to eliminate screen flickering and the exclusive Ultra-Low Blue Light Mode. Easily accessible via hotkeys, the Low Blue Light settings protect your eyes from potentially harmful blue light, minimizing strain.

Enhanced Productivity and Entertainment Features

Beyond standard display functions, this monitor includes proprietary ASUS technologies to boost performance. Features like QuickFit Virtual Scale help align documents and photos to their actual size before printing, while GamePlus provides useful overlays for gamers. The monitor's energy-

efficient design operates at only 8 W during typical use, making it both environmentally conscious and energy-saving.

- TÜV Rheinland Certified Flicker-Free technology for reduced eye fatigue.
- ASUS Ultra-Low Blue Light (LBL) modes (4 settings available).
- 5 ms (GtG) response time for smooth visuals.
- ASUS QuickFit Virtual Scale and GamePlus functionality included.

ASUS is a world-renowned leader in computer hardware and electronics, dedicated to creating innovative solutions that enhance daily life. Known for cutting-edge technology and rigorous quality standards, ASUS products like the ZenScreen line provide reliable performance and superior user experience.

Order today from ++SHOP++ as we offer the best portable monitors and accessories with exceptional customer service.

Sleek and portable design

ASUS ZenScreen is ideal for life on the road. This sleek portable display is light weight and has a slim profile, so it fits easily in any travel bag and is ready for productivity, anytime and anywhere.

One cable is all you need

ZenScreen MB166C uses a single USB Type-C connection for both power and video transmission from your host device. This means you have less cables to work with, so you get a neater work area.

Work in comfort

A ¼"-threaded hole at the rear of the monitor lets you to attach ZenScreen MB166C to a conventional tripod¹ or table-mount easily.

Work efficiently in portrait and landscape modes

With ASUS DisplayWidget software, ZenScreen MB166C can automatically sense its orientation and switch the display between landscape and portrait modes while connected to your laptop. Landscape mode is ideal for presentations and spreadsheets, while Portrait mode gives you a perfect view of items such as documents, books or websites.

ASUS blue light filter

Exclusive ASUS Ultra-Low Blue Light technology protects you from potentially harmful blue light. It offers four filter settings that are easily accessed through the onscreen display menu via the hotkey.

ASUS Flicker-free technology

ZenScreen MB166C features TÜV Rheinland-certified ASUS Flicker-free technology to reduce flicker, ensuring comfortable viewing experiences. This technology helps minimize eyestrain and other ailments typically associated with extended hours of viewing.

The ASUS ZenScreen MB166C combines a sleek, lightweight design with powerful visual performance. Its 15.6-inch Full HD IPS display, boasting a dynamic contrast ratio of 100000000:1 and wide 178-degree viewing angles, ensures stunning image clarity and color accuracy from almost any position. The monitor's anti-glare screen and LED backlighting not only provide superior image quality but also enhance viewing comfort, making it ideal for both work and play.

Designed with mobility in mind, the ZenScreen MB166C features a raised bezel and is easily connected via a USB-C interface, ensuring compatibility with a wide range of devices. Its energy-efficient design consumes only 8 W during typical operation, making it both environmentally friendly and cost-effective. Additionally, the monitor is equipped with ASUS EyeCare Technology, including Flicker-Free technology and Low Blue Light Mode, which significantly reduces eye strain during prolonged use.

For professionals and gamers, the ASUS ZenScreen MB166C offers features like ASUS QuickFit Virtual Scale, GamePlus, and Splendid Video Intelligence Technology, enhancing productivity and providing a superior entertainment experience. With its combination of portability, visual excellence, and eye care technology, the ASUS ZenScreen MB166C is a high-quality, versatile monitor.
