Pagrindinės savybės

- ✓ Reliable 800VA UPS with built-in battery
- ✓ Provides temporary battery power during power outage; prevents loss of data and damage to hardware
- ✓ 3 battery and surge protected and 3 surge protected wall power outlets to connect your computer, computer peripherals, networking equipment, flatscreen TV, home automation products or alarm system
- ✓ Surge protected outputs to prevent damage from power surges, spikes and fluctuations
- ✓ AVR function to ensure stable 230V output voltage
- ✓ Clear optical and acoustic indicators for alerts
- ✓ Overload and short circuit protection
- ✓ Support for easy wall mounting

Aprašymas

Reliable 800VA battery back-up UPS with 6 wall power outlets, suitable to power and protect your electronic devices

Back-up power

The Maxxon uninterruptible power supply (UPS) with built-in 800VA battery can keep electronic devices up and running temporarily if the main

power goes down. Connecting your hardware to one of the three battery-powered outlets offers valuable time to save your work or in-game progress and safely shut down the equipment after a power outage.

Protect your equipment

All power outlets are surge-protected and the Automatic Voltage Regulation (AVR) function automatically corrects too high or too low voltage to ensure a stable 230V output voltage. The Maxxon UPS also protects your hardware from damage by surges, spikes and fluctuations from the power grid.

Multi-purpose

The Maxxon UPS is easily set up and can be used with electronic devices up to 360W, such as your PC, home automation system, alarm, NAS server, router/modem or gaming console. The convenient top-mounted outlets make sure you can place the Maxxon anywhere: on the floor, on your desk or even mounted to the wall.

Clear alerts

The UPS is equipped with clear optical and audible indicators to alert you when necessary. In this way, you can act immediately during a power outage and save your hard work before shutting down the device. Both your hardware and data are safe from damage when using the Maxxon UPS!

Techninė specifikacija

Specifications	
Sandėlio grupė	UPS For Workstations [+16][-76]
Features	
Output power capacity	0.8 kVA
Waveform	Sine
Input operation voltage (min)	162 V
Input operation voltage (max)	290 V
Output operation voltage (min)	220 V
Output operation voltage (max)	240 V
Output frequency	50 Hz
Automatic Voltage Regulation (AVR)	Yes
Surge protection	Yes
Power protection features	Overcharge, Overdischarge, Overload, Short circuit
Audible alarm(s)	Yes
Ports & interfaces	
AC outlet types	Type F
Power plug	C13 coupler
AC outlets quantity	6 AC outlet(s)
Number of type F outputs	6
Battery	
Battery technology	Sealed Lead Acid (VRLA)

Battery capacity	7 Ah
Battery voltage	12 V
Number of batteries supported	1
Battery recharge time	8 h
Design	
Form factor	Compact
Product colour	Black
LED indicators	Yes
Packaging content	
Cables included	Input power cable
Manual	Yes
Weight & dimensions	
Width	202 mm
Depth	293 mm
Height	93 mm
Weight	4.55 kg
Packaging data	
Package width	362 mm
Package depth	244 mm
Package height	130 mm
Package weight	4.88 kg
Logistics data	
Harmonized System (HS) code	85078000
Matmenys ir svoris	
Matmenys (I × P × A)	36,00cm × 13,00cm × 25,00cm
