84.99€

Ottocast CarPlay Wireless Car Adapter with In-Car Baby Monitor (Cabin Care)

Ottocast Cabin Care is a multifunctional car device that combines a wireless CarPlay adapter with a rear-seat monitoring camera—the perfect solution for parents. Thanks to the built-in camera and fast wireless connection, you can keep an eye on what's happening in the back seat without having to turn your head. The device resembles an owl, which makes the car's interior more child-friendly.

Monitor the backseat without taking your eyes off the road

Ottocast Cabin Care lets you constantly monitor what's happening in the back of the car. Just glance at the screen in the cockpit. Thanks to the split-screen feature, the camera feed can be displayed simultaneously with a map or other CarPlay apps, allowing you to focus on the road and stay

completely safe.

Clear visibility even at night

The camera, with a wide 157° field of view, captures the entire rear row. Importantly, it also works at night thanks to its built-in infrared mode. No matter the time of day, you have a bright and clear view of what's happening inside the car, giving you greater comfort and peace of mind while driving.

Hassle-free installation

You have two installation options to choose from: the camera can be secured to the headrest with straps or mounted using a bracket on the metal seat posts. The entire process requires no tools—it takes just a few minutes to get everything up and running. Connection to the car is via USB, in plug-and-play mode.

Wireless CarPlay

The device also functions as a wireless CarPlay adapter. Simply plug the receiver into a USB port, and the system will automatically connect to your iPhone. No cables, no hassle—convenient access to maps, music, and contacts on your car's screen.

Included in the set

- Camera with built-in transmitter
- USB receiver
- USB-A to USB-C adapter
- Power cable (USB-C)
- Mounting bracket
- Mounting straps x 2
- User manual
