Modelis: CP.MA.00000879.01

Gamintojas: DJI

EAN: 6937224123076

Prekės kodas: 583424

52.99€

Two-way charging hub for DJI Mini 5 Pro

The bidirectional hub designed for the DJI Mini 5 Pro allows you to charge three batteries simultaneously and can act as a powerbank for other devices. It is also equipped with a power accumulation mode that allows you to transfer power from several batteries to one. It allows you to enjoy freedom during long sessions outdoors and beyond.

Fast charging of several batteries

Combined with the DJI 65W Portable Charger (sold separately), the hub will charge three batteries to full in about 2 hours. This saves you time and allows you to get back into the field faster.

Smart power transfer

The device allows intelligent resource management - the remaining energy from several batteries can be transferred to the one with the highest charge. This is especially useful when you don't have access to traditional power sources.

Connect additional equipment

The hub will also come in handy outside your drone work - it allows you to quickly charge your smartphone, controller or other mobile devices. So it will be your indispensable companion on the go!

Manufacturer	DJI
