The GIGABYTE AORUS B850 STEALTH ICE motherboard delivers a robust platform for high-performance computing. Designed with support for Intel Core Ultra processors, this ATX motherboard features an AMD B850 chipset and offers RAM speed options up to 8200 MT/s, ensuring fast and reliable memory performance. The motherboard is equipped with four DIMM slots that accommodate both ECC and non-ECC memory, providing flexibility for diverse usage scenarios. Additionally, the M.2 slots support multiple storage configurations, allowing for quick data access and enhanced multitasking capabilities. High definition audio support through the Realtek ALC1220 codec enables immersive sound experiences. With comprehensive connectivity options, including USB 3.2 Gen 2 and USB-C ports, the motherboard caters to modern peripherals and data transfer needs. The hardware features, like the M.2 Thermal Guard and RGB FUSION, enhance system performance and aesthetics, making the GIGABYTE AORUS B850 STEALTH ICE a choice for gamers and content creators seeking a reliable foundation for their builds.
