Galaxy Z Fold8 Ultra's 5000 mAh battery has been engineered into a slim and light Fold for more power without compromising size. Enjoy up to 27 hours of video content before a quick refuel session with super-fast charging.

Bigger, brighter, better

Display brightness. Galaxy Z Fold8 Ultra offers a 15% brighter display than Galaxy Z Fold7 with a peak brightness of 3000 nits. Plus, anti-reflection on the main screen provides less glare so you can enjoy better clarity whether you're indoors, outdoors or even on the go.

Nights. Camera. Action

Nightography. If you're a keen camper whose weekends are defined by getaways with friends in the great outdoors, you need a camera system that respects the dark. Master every shot with camera sensors that capture exceptional detail, while ProVisual Engine elevates it further by handling noise reduction in real time.

Built into the advanced AP, it intelligently analyses sensor-specific noise patterns to handle more extreme contrasts, even in low light. It keeps shadows in the background as they should be, while capturing the crisp, flickering details of the fire — perfectly documenting the camp setup you curated.

Evolution in resolution

High Resolution. The 200 MP Wide camera and upgraded 50 MP Ultra Wide camera allow you to take even the most scenic shots in high-resolution detail. Plus, wider apertures on the Ultra Wide sensor provide 34% improved brightness compared with Galaxy Z Fold7.

Main screen and cover screen selfies also get an upgrade with the newly integrated AI image signal processor (ISP) for more natural selfies that are true to your natural skin tone and hair texture.

Super sharp 8K clarity

8K Video Recording. Your video footage should be usable from the moment you capture it. Galaxy Z Fold8 Ultra's upgraded 50 MP Ultra Wide camera enables 8K, allowing you to go from Wide to Ultra Wide with unparalleled visual clarity. With four times the resolution, create cinematic masterpieces with shots that feel more immersive and lifelike.

Whether you're conquering uneven hiking trails or working on sprinting drills with friends, capture consistently smooth, shake-free footage every time. Super Steady's Horizontal Lock automatically detects the horizon to keep your frame level, even if your camera rotates a full 360°.

Nudges what's next. Takes you there right away

If your schedule is packed tight with commitments, you don't have the bandwidth to think about next moves. Running enthusiasts no longer need to manually open their Calendar app to crosscheck the date for the next event. Instead, Now Nudge keeps things moving without pulling you out of the moment.
