Aprašymas

XL2546X+ Gaming Monitor for Esports

Best-in-Class Motion Clarity – The Top Choice for Global FPS Tournaments.

Compared to typical IPS panel, a Fast TN panel provides clearer and sharper outlines of overall moving images, helping you focus and have less distractions from the unwanted afterimage of the motions in-game.

Overshoot Reduced with Newly Developed Fast TN Panel

This newly developed panel applies faster electrical conductivity design, enhancing responsiveness of the liquid crystal and reducing the overshoot more effectively.

Faster Recovery During Flash Bangs

The blinding whiteness fades away much faster compared to IPS panel technology, giving players the advantage of seeing enemy outlines earlier.

Better Color Performance

The XL2546X+ has been meticulously redesigned to enhance color performance, offering more vibrant hues and greater clarity in identifying enemies.

Latest Dynamic Accuracy Technology (DyAc 2)

Best-in-Class Motion Clarity

Through ZOWIE’s exclusive panel hardware design, DyAc/DyAc+/DyAc 2 provide best in-class motion clarity and better overall visual experience.

New Dual Backlight Design

With its dual backlight technology, DyAc 2 enhances performance in blur reduction while it offers a soft light output, facilitating eye adaptation.

New Auto Game Mode Automatically Adjusts Color Modes

Automatically switches color modes based on screen content, saving setting adjustment hassles and enhancing switching-free gaming experience.

Comfort & Adjustability

New monitor stand incorporates industrial-grade bearings into the height adjustment mechanism, allowing easier and smoother adjustment to preferred height.
