cable takes up a minimum of space and is an ideal accessory for the car. In the shortened state, the cable is only 35 cm long and does not obstruct anywhere. When stretched, it comfortably reaches 60 cm away from the socket.

Power cables 22AWG (lower number = larger cross-section and lower wire resistance) guarantee fast charging of phones and other mobile devices. Data wires 30AWG together with high-quality shielding, ensure reliable data transmission. Double shielding protects transmitted signals from adverse interference.

Durable cable gland reduces dangerous cable bending. The mechanical resistance of the cable is also increased by the aluminum terminal covers.
