

# GODOX X3Pro TTL Remote Trigger for Sony

Modelis: X3Pro S

Gamintojas: GODOX

EAN: 6952344244289

Prekės kodas: 584493

## 114.99€

### GODOX X3Pro S Flash Trigger

The GODOX X3Pro Flash Trigger for Sony is a compact, wireless TTL radio trigger with a 2.4" touchscreen, designed for convenient lighting control during photo shoots. The device supports TTL, Manual, and Multi modes, offers HSS synchronization, is compatible with the Godox 2.4GHz Wireless X system, and allows you to manage 16 groups and 32 channels. The intuitive interface allows you to view four groups simultaneously, and Bluetooth connectivity enables remote control via the Godox Flash App. Thanks to its extensive configuration options and compatibility with Sony cameras, the X3Pro is ideal for both studio and outdoor use.

### Intuitive operation and full control over lighting

The 2.4-inch touchscreen makes changing settings quick and convenient, without having to navigate through a complex menu. Simultaneous preview of four groups makes it easy to control lighting configurations, and the ability to manage up to 16 groups provides great flexibility during more

complex shoots. Additionally, the device allows you to adjust the TCM function, flash head zoom settings, and modeling light on compatible flashes. Saved settings are automatically restored upon restart, allowing you to quickly return to a previously prepared configuration.

### Stable Communication and Convenient Control via the App

The built-in Godox 2.4GHz Wireless X system ensures stable signal transmission and reliable flash triggering even in areas where many wireless devices are in use. Users have access to 32 channels and a scan function that helps find the least-interfered-with frequency. Bluetooth connectivity allows you to control the trigger via the Godox Flash App, enabling you to change group settings, adjust flash power, and trigger the strobes without having to go to the camera. This solution enhances convenience, especially when shooting in a studio or in hard-to-reach locations.

### Advanced Features for Creative Photography

The Godox X3Pro is equipped with three operating modes tailored to various photographic applications. One-Shoot mode is used solely to trigger the flash; All-Shoot mode simultaneously transmits settings and triggers the flashes; while L-858 mode enables integration with a compatible light meter, ensuring even greater exposure precision. The device also allows you to program single shots, long exposures, and time-lapse sequences, with the ability to set exposure time, intervals, and the number of photos taken. As a result, the trigger is ideal for both dynamic photo sessions and photography that requires precise planning.

### Included

- GODOX X3Pro S Flash Trigger
- USB-C cable
- Carrying case
- Manufacturer’s packaging
