GODOX V860IIIF Fuji Flash

The GODOX V860III F flash is a modern photojournalism flash designed for Fuji cameras. The model features automatic TTL metering, manual mode, and Multi stroboscopic flash, making it ideal for photojournalism, portraiture, and event photography. Guide number 60 (ISO 100, 200 mm), HSS synchronization up to 1/8000 s, a 20–200 mm zoom range, and the built-in Godox X 2.4G wireless system ensure great flexibility in various lighting conditions. A high-capacity lithium-ion battery allows for up to 480 full-power flashes, and the recharge time is a maximum of 1.5 seconds, enabling you to work without unnecessary downtime.

Modeling light and quick mode switching

The GODOX V860IIIF is equipped with a modeling light featuring 10-step power adjustment, which makes it easier to assess the lighting effect before taking a photo. This makes it easier to choose the right direction and intensity of light, reducing the number of test shots. The manufacturer has also

included a practical switch that allows for instant switching between TTL and manual modes. This solution enables you to react more quickly to changing shooting conditions and enhances your workflow during dynamic photo sessions.

High-Capacity Battery for Long Sessions

The flash uses a high-capacity lithium-ion battery that allows for up to 480 full-power flashes on a single charge. The maximum recharge time is just 1.5 seconds, so the flash is quickly ready for the next shot. This is especially useful during photojournalism, weddings, or events where continuity is key. Fewer breaks for recharging mean greater convenience and the ability to focus on taking photos.

Flexible Light Control

The flash head offers automatic and manual zoom ranging from 20 to 200 mm, allowing for precise adjustment of the light beam to match the lens’s focal length. Additionally, it rotates horizontally from 0° to 330° and tilts vertically from -7° to 120°, making it easier to use bounce flash. Such a wide range of adjustment allows you to work freely both in small rooms and when photographing in larger spaces. The result is greater control over the lighting and a more natural look to your photos.

Included in the set

- GODOX V860IIIF flash
- Lithium-ion battery
- Charger
- USB cable
- Protective case
- Manufacturer’s packaging
