VEXILAR C8 Upright Vacuum Cleaner

The VEXILAR C8 upright vacuum cleaner is a 600-watt corded model that generates up to 60,000 Pa of suction power, ensuring effective removal of dust, sand, pet hair, and larger debris from floors and carpets. Thanks to its lightweight design weighing just 1.7 kg, a 3-stage telescopic tube (85 / 100 / 110 cm), a 1.5-liter dust container, a 6-stage HEPA Lock filtration system, the TurboBrush™ turbo brush with an active roller and LED lighting, and a corded power supply that guarantees unlimited runtime, the device is ideal for both daily cleaning and thorough cleaning of larger areas. The extensive set of attachments allows you to conveniently vacuum floors, upholstery, stairs, crevices, and hard-to-reach places.

High suction power for demanding tasks

The 600 W motor generates suction power of up to 60,000 Pa, allowing the vacuum cleaner to effectively remove both fine dust and heavier debris. Two power settings allow you to adjust the

vacuum's performance to the type of surface being cleaned and the level of dirt. Its high efficiency makes cleaning faster, and floors and carpets require fewer passes.

Unlimited Corded Power

The VEXILAR C8 is a corded vacuum cleaner, so it doesn't require battery charging or breaks during cleaning. The constant power supply maintains full suction power throughout the entire cleaning session, regardless of how long you vacuum. This practical solution is particularly well-suited for larger apartments and homes, where continuous operation is essential.

Lightweight Design for Enhanced Comfort

Weighing just 1.7 kg, the vacuum cleaner is easy to maneuver and carry between rooms. The ergonomic handle improves comfort during everyday use, and its light weight makes it easier to clean stairs, furniture, and higher surfaces. As a result, even longer cleaning sessions aren't as tiring as they are with heavier models.

TurboBrush™ with an active roller and LED lighting

The VEXILAR C8 is equipped with a TurboBrush™ featuring an active roller, which effectively picks up dust, hair, and pet hair from both hardwood floors and carpets. The brush's design improves the effectiveness of picking up dirt from various surfaces, making cleaning more thorough. The built-in LED lighting helps you spot dust under furniture and in dimly lit areas, making it easier to vacuum thoroughly.

Convenient Cleaning Under Furniture

The design allows the vacuum cleaner to swivel up to 180°, making it easy to slide the brush under beds, sofas, or dressers. Thanks to its low profile, you can more easily reach places that are usually out of reach for standard vacuum cleaners. This reduces the need to move furniture and makes daily cleaning more convenient.

6-Stage HEPA Lock Technology Filtration

Clean air is ensured by the 6-stage HEPA Lock Technology filtration system, which effectively separates contaminants at each stage. The system consists of a large-particle separator, a mesh filter, cyclonic filtration, a coarse sponge pre-filter, a HEPA filter, and a fine sponge filter. This solution captures up to 99% of contaminants, including dust, allergens, and particles as small as 0.3 microns, while reducing the risk of clogging the filtration system and maintaining high vacuuming efficiency.

1.5-liter XXL Dust Bin - Empty Less, Clean More

The 1.5-liter bagless dust bin is designed for cleaning larger areas. The dustbin holds up to 150% more debris—about three times more than standard 0.5-liter dustbins—so you don't have to empty it as often. A single emptying is enough to clean an area of up to 200 m², which owners of larger apartments and homes will particularly appreciate.

Adjustable Telescopic Tube

The vacuum cleaner is equipped with a 3-position telescopic tube, which can be adjusted to 85 cm, 100 cm, or 110 cm. This adjustment allows you to tailor the device to your height and the type of task at hand. As a result, you can comfortably vacuum floors, stairs, and baseboards, as well as higher areas, without having to bend over excessively.

Practical Accessories for Various Applications

The set includes attachments that expand the vacuum cleaner's versatility throughout your home. The crevice tool makes it easy to clean narrow spaces, the upholstery tool is ideal for vacuuming furniture, and the wall mount allows for convenient storage of the unit. An additional HEPA filter and a cleaning tool make it easy to maintain the vacuum cleaner and keep it running at peak performance.

Freestanding Design

The VEXILAR C8 model can stand upright on its own, allowing you to conveniently pause cleaning without having to lean the unit against a wall. The built-in cord holder helps keep the cord tidy and makes storage easier. These features enhance the convenience of everyday use and help save
