Aprašymas

The Synology HAT5320 is designed for reliable performance with a capacity of 8 TB, making it suitable for data-intensive applications. This internal hard drive features a spindle speed of 7200 rpm and an internal data rate of 281 MBps, ensuring efficient data management and access. With support for Serial ATA-600 interface, it provides fast connectivity to enhance system performance and responsiveness.

Built to withstand a wide range of environmental conditions, the HAT5320 operates seamlessly between temperatures of 5°C to 60°C and can be stored in environments ranging from -40°C to 70°C. This storage solution can handle random read and write operations while consuming minimal power, which makes it suitable for both personal and professional use.
