Extreme Speed for Competitive Gaming

The core strength of the 27G4HRE lies in its ultra-high speed performance. Experience fluid motion and instant response with an exceptional **200 Hz refresh rate**, ensuring that every frame is rendered smoothly and clearly. The blazing-fast **1ms GtG (Grey-to-Grey) response time** virtually eliminates motion blur, while the **0.5ms MPRT** (Moving Picture Response Time) provides razor-sharp visuals, crucial for fast-paced action games.

Tear-Free and Immersive Visuals

- **Adaptive Sync Compatibility:** Enjoy seamless, tear-free, and stutter-free gameplay. Adaptive Sync technology (G-Sync compatible) synchronizes the monitor's refresh rate with your GPU's frame output, providing low input lag and a smooth experience.
- **Fast IPS Panel Quality:** The Fast IPS technology ensures wide 178° horizontal and vertical viewing angles, delivering consistent colors and brightness from almost any perspective.
- **HDR10 Support:** Enhance visual quality with HDR10, which boosts contrast ratios and provides a wider color gamut, delivering deep blacks and bright whites for truly immersive experiences.
- **Full HD Resolution:** Crisp 1920 x 1080 resolution on a 16:9 native aspect ratio ensures excellent detail retention across the 27-inch screen.

Connectivity and Design

The 27G4HRE offers robust connection flexibility, featuring two HDMI 2.0 ports and one DisplayPort 1.4 input, allowing you to easily connect multiple gaming consoles or PCs. Designed with modern black aesthetics and red gaming accents, this monitor also includes VESA mounting compatibility for flexible setup options and convenient built-in speakers.

AOC (Admiral Overseas Corporation) is a globally recognized specialist in display technology, known for delivering high-performance, quality monitors designed for both professional use and competitive gaming, prioritizing speed, reliability, and visual excellence.
