- ✓ QWERTY US English
- ✓ Tenkeyless (80 - 87%)
- ✓ Windows keys Adjustable keyboard height
- ✓ Backlight RGB LED Multicolour
- ✓ Black
- ✓ 1 pc(s)

Aprašymas

Compact form. Full control

GENESIS Thor 430 TKL is a compact mechanical keyboard designed for gamers who want speed and comfort. The low-profile design, quiet switches and extensive customization options will make it easy to match it to both dynamic gaming and everyday computer work.

Speed of response from the first click

Outemu's low-profile mechanical switches with a shorter actuation point will give you lightning-fast gaming response and smoother typing every day. The quiet operation of the switches will allow you to focus on gameplay and tasks without unnecessary noise, and a lifespan of up to 50 million clicks will guarantee reliability for a long time.

Distraction-free gaming comfort

The combination of quiet switches with Gasket Mount design will effectively reduce vibrations and improve the acoustics of the keyboard. As a result, you'll get a softer and more pleasant typing experience, and every keystroke will become noticeably more comfortable whether you're playing intense games or working for hours on end.

Tailored to your playing style

Thanks to the hot swap slots, you can easily replace the switches without using tools. In just a few moments, you'll adjust the keyboard's characteristics to your own preferences and playing style, creating a setup exactly as you need it.

Backlighting to create atmosphere

RGB backlighting with Prismo effect and 21 illumination modes will allow you to create a stand exactly in your style. Dynamic lighting effects will not only emphasize the gaming character of the setup, but also make it easier to use the keyboard after dark.

Practical solutions

N-key rollover will ensure that all pressed keys are fully registered even during the most demanding moments of gameplay. The dual folding legs will allow you to conveniently adjust the angle of the keyboard to your preference, and the rubberized bases will take care of the stability on your desk. You'll also find a detachable USB-C cable with an adapter, so you can easily connect the keyboard exactly the way you want.

Techninė specifikacija
