The Chosen One

The ROG Swift OLED PG32UCDM Gen3 boasts a 32-inch 4K QD-OLED panel that delivers astounding visuals at a buttery-smooth 240 Hz. Powered by QD-OLED technology, the PG32UCDM3 delivers vibrant colors, the deepest black hues, and the brightest highlights. A host of other innovative features include BlackShield™ film for enhanced durability and deeper black hues, and ASUS OLED Care Pro to prevent panel burn-in. With future-proof connectivity such as DisplayPort™ 2.1 UHBR20 and USB-C® with 90-watt Power Delivery, the PG32UCDM3 delivers unparalleled gaming and content-creation experiences.

The ASUS ROG Swift PG32UCDM3 is designed for gamers who seek a visual experience. With a 32-inch Quantum Dot OLED display that features a native resolution of 3840 x 2160, this monitor delivers 4K graphics complemented by a color support of 1.0737 billion colors. The display includes Adaptive-Sync technology, ensuring smooth gameplay with AMD FreeSync Premium Pro and NVIDIA G-SYNC compatibility. With HDR capability and a VESA DisplayHDR 400 True Black certification, the PG32UCDM3 enhances contrast and brightness, allowing users to enjoy games with true-to-life visuals.

The ergonomic design of the monitor supports swivel, tilt, and height adjustments for comfort during extended gaming sessions. With a rapid 0.03 ms response time and a vertical refresh rate of up to 240 Hz, gamers will experience fluid motion and reduced blur. The built-in USB hub and various input options, including HDMI, DisplayPort, and USB-C, ensure convenience and versatility in connecting multiple devices. This monitor incorporates ASUS GameVisual Technology and Extreme Low Motion Blur technology to enhance gameplay further, making it a reliable choice for avid gamers.
