Pagrindinės savybės

- ✓ NVIDIA Ampere Streaming Multiprocessors
- ✓ 2nd Generation RT Cores
- ✓ 3rd Generation Tensor Cores
- ✓ Powered by GeForce RTX™ 3050
- ✓ Integrated with 6GB GDDR6 96-bit memory interface
- ✓ Low Profile Design with 181mm card length
- ✓ Supports up to 4 displays

Aprašymas

GIGABYTE

CUSTOM-DESIGNED COOLING SYSTEM

GIGABYTE's custom-designed cooling system delivers effective heat dissipation capacity, featuring copper heat pipe that makes direct contact with the GPU. This facilitates enhanced heat transfer to the heatsink, allowing for higher performance at lower temperatures.

LOW PROFILE DESIGN

At just 181mm in length, the card is perfect for compact builds. An additional low-profile bracket is included for seamless adaptability to different build needs.

AMPLE CONNECTIVITY

Enjoy versatile display options with two DisplayPort and two HDMI ports, supporting up to 4 displays simultaneously.

ULTRA DURABLE

ULTRA COOLING

Lower RDS(on) MOSFETs are specially designed to produce lower switching resistance for faster electric current charging and discharging at extremely low temperature.

LOW POWER LOSS

Metal Choke hold energy much longer than common iron-core chokes at high frequency, thus effectively reduce core energy loss and EMI interference.

LONGER LIFE

Lower ESR Solid Capacitors ensure better electronic conductivity for excellent system performance and longer lifespan.

FRIENDLY PCB DESIGN

Fully automated production process ensures top quality of the circuit boards and eliminates sharp protrusions of the solder connectors seen on the conventional PCB surface. This friendly design prevents your hands from getting cut or inadvertently damaging components when making your build.

GIGABYTE CONTROL CENTER

GIGABYTE CONTROL CENTER (GCC) is a unified software for all GIGABYTE supported products. It provides an intuitive interface that allows users to adjust clock speed, voltage, fan mode and power target in real-time.

Techninė specifikacija

Processor	
Graphics processor family	NVIDIA
Graphics processor	GeForce RTX 3050
Maximum resolution	7680 x 4320 pixels
CUDA	Yes
Processor frequency	1477 MHz
CUDA cores	2304
Maximum displays per videocard	4
Memory	
Discrete graphics card memory	6 GB
Graphics card memory type	GDDR6
Memory bus	96 bit

Memory clock speed	14000 MHz
--------------------	-----------

Ports & interfaces

Interface type	PCI Express 4.0
----------------	-----------------

HDMI ports quantity	2
---------------------	---

DVI-D ports quantity	0
----------------------	---

DVI-I ports quantity	0
----------------------	---

DisplayPorts quantity	2
-----------------------	---

Thunderbolt 3 ports quantity	0
------------------------------	---

Mini HDMI ports quantity	0
--------------------------	---

HDMI version	2.1
--------------	-----

Mini DisplayPorts quantity	0
----------------------------	---

DisplayPort version	1.4a
---------------------	------

Performance

TV tuner integrated	No
---------------------	----

DirectX version	12 Ultimate
-----------------	-------------

OpenGL version	4.6
----------------	-----

Dual Link DVI	No
---------------	----

Design

Cooling type	Active
--------------	--------

Number of fans	2 fan(s)
----------------	----------

Form factor	Full-Height/Half-Length (FH/HL)
-------------	---------------------------------

Product colour	Black
----------------	-------

Power

Minimum system power supply	300 W
-----------------------------	-------

Weight & dimensions

Length	181 mm
--------	--------

Depth	36 mm
-------	-------

Height	69 mm
--------	-------

Packaging data

Package type	Box
--------------	-----

Packaging content

Quick installation guide	Yes
--------------------------	-----

User guide	Yes
