Pagrindinės savybės

- ✓ Steering wheel + pedals + shifter PC, PlayStation 4, PlayStation 5
- ✓ Black
- ✓ Wired
- ✓ Cable

Aprašymas

Make your virtual farm thrive with T128 SimTask Farming Pack: a bundle specially designed for farming simulation, combining the T128 racing wheel, Steering Kit and FarmStick for outstanding control and total immersion at the controls of your farming equipment.

COMPLETE FARMING PACK

T128 SimTask Farming Pack is a next-level solution for farming simulation. It combines the T128 Force Feedback racing wheel and its T2PM magnetic pedal set, the adjustable SimTask Steering Kit metal support plus a rotary spinner knob, and FarmStick, a multifunctional joystick for controlling all types of farming equipment. It's a complete pack for total immersion and control.

VERSATILE T128 RACING WHEEL

T128 features HYBRID DRIVE Force Feedback, allowing gamers to experience the fun, intuitive sensations of driving. In Farming Simulator 25, the wheel rim can automatically return to the central position, making it easier to drive farming equipment. T128 adapts to all driving styles thanks to its rotation angle of 270° to 900° and its round, lightweight wheel rim that really gets the most out of all the Force Feedback's power.

ADJUSTABLE STEERING KIT SUPPORT

The included SimTask Steering Kit features a 100% metal attachment system with built-in clamps, compatible with desks and tables from 0.6–2.0" / 15–50 mm thick. It lets you easily adjust the T128 racing wheel's height and tilt without any tools. Set up your racing wheel flat, just like in a tractor cab, to enjoy ergonomic positioning and truly outstanding immersion.

MULTIFUNCTIONAL FARMSTICK JOYSTICK

SimTask FarmStick is the all-in-one joystick designed for farming simulation. Control farming equipment and perform any task incredibly easily thanks to its three 16-bit steering axes, two of which feature H.E.A.R.T. (Hall Effect) sensors. Great for all tasks, it combines a joystick featuring a multifunctional handle and a control panel in a single device, offering 33 buttons and various types of controls.

ERGONOMIC, REALISTIC DESIGN

An ergonomic pack inspired by high-end tractor cabs for an immersive, realistic driving experience. FarmStick offers comfortable handling, with true-to-life dimensions. The pack includes a rotary spinner knob that allows for one-handed driving for greater agility, freeing up your other hand to operate your tools with FarmStick. The T2PM pedal set completes the pack for total control of your vehicles.

PLUG & PLAY WITH FARMING SIMULATOR 25

T128 SimTask Farming Pack is compatible with PS5 and PC (Windows 10/11), and is Plug & Play in Farming Simulator 25 (game not included). The controls are automatically assigned to each vehicle. On PC, all buttons can be programmed for the needs of each game (list of compatible games available on the Thrustmaster support website).

Please note: on PS5, SimTask FarmStick is only compatible with Farming Simulator 25.
