ONYX BOOX Tab X C is a 13.3" color E Reader based on a high-performance hardware platform and with wide possibilities for working with documents. The model has an E Ink Kaleido 3 touch screen with front light and color temperature adjustment and dual touch control. The capacitive sensor allows you to conveniently control the device, and the inductive sensor makes it possible to make drawings and handwritten notes. The model is based on a powerful 8-core processor and 6 GB of RAM. The new graphics processor with BOOX Super Refresh technology provides high-speed screen refresh and smooth movement of objects on the screen. Tab X C is perfect not only for reading, but

also for working with various types of documents, including color images. The Android 13 operating system allows you to install and use third-party applications. The built-in Wi-Fi module provides the ability to download files from the Internet and use various network services, and Bluetooth support allows you to connect external devices. 128 GB of internal memory makes it possible to store any necessary ebooks and documents in the device without any restrictions. The device is made in a lightweight and durable aluminum-magnesium alloy casing, the screen is additionally covered with a protective glass. The model supports an active stylus for handwritten notes and drawings. The high-capacity 5500 mAh battery provides a long battery life. There are 2 types of cases available for the Tab X C - a magnetic case and a special case with a keyboard and trackpad suitable for user-friendly typing. These cases can be purchased separately. They can be used to protect the ONYX BOOX Tab X C during transportation.
