information than standard 6-inch models. The device is built on a high-performance hardware platform powered by a modern 8-core processor and 4GB of RAM. It runs on Android 13, allowing users to install and use additional applications. This E-Reader is equipped with modern Wi-Fi and Bluetooth modules, and its 64GB of internal storage together with a microSD card slot allow you to store a large number of books and documents directly in the device. The built-in audio player allows you to listen to audiobooks and music via the built-in speaker or headphones. The device is produced in a slim and compact body with control buttons on the side, and its screen is protected by tempered glass. The device comes in two colors: black and white and you can purchase separately a convenient magnetic case to keep the device safe when traveling. The model supports a stylus for taking handwritten notes and drawings which can be purchased separately here. Thanks to its larger screen and note-taking ability, this E-Reader is ideal for those who plan to combine reading books and working with documents using a stylus.
