Unmatched Precision and Durability

Gain the competitive edge with the advanced Pixart PMW 3327 optical gaming sensor, providing up to 12,000 DPI resolution. The HARPOON RGB PRO ensures flawless tracking and rapid response times, making every movement count. Built with durability in mind, its six programmable buttons feature high-quality OMRON switches rated for 20 million clicks.

- **High-Precision Sensor:** 12,000 DPI optical sensor (Pixart PMW 3327) for accurate tracking.
- **Ultra-Lightweight Design:** Weighs only 85g, ensuring quick, strain-free movements.
- **Rapid Polling Rate:** Selectable report rates up to 1000 Hz (1ms response time) for zero latency performance.
- **Reliable Switches:** Durable OMRON switches rated for 20 million clicks.
- **Plug-and-Play Connectivity:** Wired USB connection with a 1.8 m cable length.

Smart Customization with iCUE

Personalize your gaming experience using the powerful CORSAIR iCUE software. Customize the dynamic RGB LED backlighting and utilize the built-in flash memory to save your DPI settings and macro profiles directly onto the mouse, allowing you to take your personalized settings wherever you game. The six fully programmable buttons allow complex command execution at your fingertips.

CORSAIR is a leading global developer and manufacturer of high-performance gear and technology for gamers, content creators, and PC enthusiasts. Known for reliability, innovative design, and superior performance, CORSAIR peripherals empower users to achieve peak productivity and gaming prowess.
