- ✓ Automatic low-light correction, auto exposure (AE), auto white balance (AWB), auto flicker correction, color correction, gamma correction, dark level compensation, auto edge enhancement
- ✓ Dual microphone with noise reduction, 35 dB, high sensitivity
- ✓ Tilt -90°/+0°, rotation 360°
- ✓ Plug-and-play – no driver installation needed
- ✓ Versatile: attach to LCD screens, laptops, tabletops or attach to your own or the included tripod

Aprašymas

This is the perfect solution for your video calls and streaming events! The Full HD webcam UA0384 has a 76° wide-angle lens and a powerful auto focus function keeping you in focus, even when you're moving around. It's high-quality dual microphone captures the voices of all people. It has been specially optimized for crystal clear conversations in the room, making the sound cleaner and more articulate. The lens, consisting of 6 coated glass and plastic elements, enables precise and distortion-free images. Even if you are in a dark area, the low light correction function adjusts your lighting to create bright images. The special highlight of the camera is the integrated ring light. If the normal light correction is not sufficient due to

poor lighting conditions, you can choose between 3 brightness levels of the ring light. Thus, your face is always sufficiently illuminated and you have all the conditions to perform live streaming and video telephony in a professional quality!

Techninė specifikacija

Specifications	
Sandėlio grupė	WebCams [+0][-0]
