Pagrindinės savybės

- ✓ Digital LED memory controller for customizable settings
- ✓ 3 programmable memory presets save your desired height
- ✓ Time reminder for regular movement
- ✓ Keyboard tray that holds keyboard and mouse side by side and raises in sync with the tabletop, creating a comfortable work space
- ✓ Leveling feet which help to adapt to most uneven floor or surface

Aprašymas

Product information "Electrically adjustable sit-stand workstation, 1 motor" from LogiLink

The LogiLink sit/stand desk is ideal for the office or at home. While a complete desk may not fit into the room, this workstation is small and compact and still has enough storage space for your screen, mouse, keyboard and much more. It has a simple electrical height adjustment system with a digital LED control panel, which can store up to three different heights. In this way you can either use these programmable presets or gently adjust the height mm by mm as you like and decide whether you prefer to sit or stand.
