Meross MSS815MA-UN Smart WiFi Wall Switch (4-Pack)

Turn a regular light switch into a smart control center—without altering the wiring or disrupting your interior design. Install the Meross MSS815MA-UN directly behind your existing switch to gain access to remote control, schedules, automation, and energy consumption monitoring. Its compact design and Matter compatibility make it the perfect solution for a modern smart home. The set includes 4 MEROSS smart Wi-Fi switches.

Discreet installation, wide compatibility

Thanks to its compact design (38x42x19 mm), the switch fits into standard 60 mm diameter installation boxes. Additionally, the product works with most single-pole switches—including push-button, bell, rocker, and touch switches. Note: the product requires a neutral wire and the 2.4 GHz

Wi-Fi band (the 5 GHz band is not supported).

Smart home without compromise

The device supports Apple HomeKit, Google Home, Amazon Alexa, Home Assistant, and the Meross app. Thanks to Matter support, you can integrate it with any smart home ecosystem. Connection stability, low latency, and local communication mean fast responses and greater security!

Remote control and automations

The switch can be controlled remotely, and you can set schedules and scenes tailored to your daily routine. It's also possible to connect to other devices and create automations—all within compatible platforms.

Energy consumption under control

The MSS815MA-UN allows you to monitor energy consumption in the Meross app. This solution lets you consciously manage your lighting and reduce unnecessary costs without sacrificing comfort.

Safe and robustly built

The Meross MSS815MA-UN switch is made of flame-retardant PC plastic and features copper contacts. It supports a load of up to 10 A (2500 W), and for light sources up to 400 W for INC and 150 W for LED/CFL. It's a small device with big capabilities!
