84.99€

Underwater protection for your smartphone up to 40 meters

The PULUZ PU9115W waterproof case is an advanced accessory designed for underwater photography and videography with a smartphone. It allows you to safely submerge your phone to a depth of up to 40 meters (130 ft) while maintaining access to the camera functions and device controls. The case is compatible with a wide range of iPhone models (from the 11 Pro Max series to the iPhone 16) and is perfect for diving, snorkeling, surfing, cruising, or winter sports.

Watertight and durable construction

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Gamintojas ir pardavėjas neatsako už galimus duomenų neatitikimus ar tipografines klaidas. Prieš įsigyjant rekomenduojame pasitikrinti aktualią informaciją.

The case is made of durable glass and corrosion-resistant PC plastic, providing effective protection against water, scratches, dust, dirt, and mechanical damage. The one-way vacuum valve enhances watertightness and minimizes the risk of leaks, while the ergonomic opening system makes it easy to use. The housing offers a clear view and convenient underwater control, including taking photos, recording video, and switching between cameras.

Safe use in demanding conditions

To ensure complete safety, we recommend performing a leak test before each use, e.g., by submerging the empty housing with a paper towel for about 10 minutes in shallow water. The product supports touchscreen control underwater (up to approx. 30 m under standard conditions); however, at greater depths, screen sensitivity may be limited by water pressure. The maximum recommended operating temperature is 40°C. Note: The product is not compatible with iOS 26.

Included:

- Waterproof case × 1
- Manual vacuum pump × 1
- Lanyard × 1
- Red filter × 1
- Cleaning cloth × 1
- O-ring seal × 1
