56.99€

Niimbot B31 portable label printer (dark blue)

The Niimbot B31 label printer is a solution that allows you to significantly improve your daily work in stores, offices or warehouses. Thanks to thermal printing technology, no ink or toner is required - just load the paper and start printing. The device supports wide labels from 20 to 75 mm, which gives you a lot of flexibility to fit different applications. An intuitive pinless loading system makes it easy to use, and an automatic paper reversal feature ensures that no label is wasted.

Versatile connectivity and control

The Niimbot B31 can be connected to both a computer and a smartphone. It supports Bluetooth and USB Type-C connectivity, and a dedicated app allows you to create and edit labels on multiple platforms. What's more, the printer can be paired with several devices simultaneously, improving

teamwork. Smart RFID recognition eliminates the need for manual template selection, making the design process even faster and more intuitive.

Professional software in the cloud

Using Niimbot Cloud Printing, you gain access to more than 7,000 ready-made templates for various industries, as well as the ability to import data from Excel sheets in bulk. The batch printing feature allows you to batch print multiple labels at once, significantly increasing productivity. The ability to edit labels in the mobile app or on your computer makes all your work synchronized and available in the cloud. This is the solution already chosen by more than 12 million users worldwide.

Durability and high print quality

The Niimbot B31 label printer offers a resolution of 203 dpi and a print speed of up to 80 mm/s, so labels are legible, clear and created in a short time. Prints are scratch-, water- and oil-resistant, BPA-free, and additionally do not leave sticky residues. As a result, the labels can be used in trade, as well as in the food, pharmaceutical or clothing industries. The built-in 1500 mAh lithium battery allows for long operation without the need for frequent recharging.

Applications in many industries

The Niimbot B31 will be great for stores and supermarkets, food service, packaging of baked goods or finished products, as well as offices and warehouses. It will successfully find use in the pharmaceutical, clothing or telecommunications industries. With support for a variety of materials, colors and label sizes, you gain full freedom to customize printouts to suit your business needs.

Included

- label printer
- label roll
- USB-C cable
