The NZXT C-Series C1200 power supply is designed to meet the needs of high-performance PC and server systems, offering 1200 watts of power. With an 80 PLUS Gold certification, it achieves up to 91% efficiency at 50% load, ensuring energy savings and reduced heat output. The inclusion of a 135 mm fan with fluid dynamic bearing technology ensures silent operation, making it an excellent choice for users seeking a quiet environment. Its fully modular design allows for a clean and organized build by using only the necessary cables, enhancing airflow and system aesthetics. The C1200 is equipped with a wide array of connectors, including multiple PCI Express power connectors, ensuring compatibility with a variety of configurations. Whether for a gaming rig, professional workstation, or server setup, the NZXT C-Series C1200 power supply delivers reliable, efficient, and silent power.
