Magcubic HY300PRO+ Projector

The Magcubic HY300PRO+ is a compact, portable projector with a native resolution of 720p (1280 × 720), 4K content support, and a brightness of 200 ANSI lumens, capable of projecting an image up to 130 inches in diagonal. Thanks to the Allwinner H726 processor and the latest Android 14 system, it runs smoothly and provides convenient access to entertainment without the need to connect additional devices. Wi-Fi 6 and Bluetooth 5.4 connectivity, a built-in 5W speaker in the base (Speaker Base), and a 180° rotating design make the device perfect for both home use and outdoor screenings.

Large image and flexible projection adjustment

The projector can display images ranging from 80 to 130 inches, allowing you to adapt it to various spaces and needs. The recommended distance of 1.6 m provides an 80-inch screen. At a distance of 2.0 m, you'll get a 100-inch screen, and at 2.6 m, you'll reach the maximum size of 130 inches,

making it easy to host a movie night in your living room or outdoors. The 80–100% digital zoom allows you to precisely adjust the image size without having to change the projector's settings, which significantly enhances usability in smaller rooms.

Precise image adjustment without unnecessary effort

The HY300PRO+ model offers a dual focusing system: manual adjustment via a dial and a digital mode (Digital Focus), allowing you to instantly achieve a crystal-clear image. Auto Vertical Keystone automatically straightens the image when projected onto a wall at an angle, while manual horizontal correction provides full control over the projection geometry. Thanks to these features, you can set up the projector almost anywhere and enjoy a perfectly proportioned image without time-consuming adjustments.

Smart TV Always at Your Fingertips

Thanks to the latest Android 14 system and the powerful Allwinner H726 processor, the projector functions as a standalone entertainment hub. This allows you to directly access apps such as YouTube, Netflix, Disney+, Prime Video, and Hulu without needing to connect external devices. The Wireless Casting feature allows for instant, wireless image transmission from iOS, Android, and Windows devices, making it a versatile tool for both home movie nights and professional presentations.

Fast connectivity and broad compatibility

Support for the modern Wi-Fi 6 standard (dual-band 2.4G/5G) ensures a stable and fast connection, guaranteeing smooth playback of high-quality videos without buffering. Bluetooth 5.4 enables instant and energy-efficient pairing of headphones, external audio systems, or control accessories. The projector features broad compatibility thanks to HDMI and USB ports as well as a 3.5 mm audio output, allowing for seamless connection of a laptop, game console, TV Stick, or USB drive and the use of multiple content sources simultaneously.

Built-in audio for everyday use

The projector is equipped with a 5W speaker integrated into the base using Speaker Base technology, allowing you to enjoy clear sound without having to connect additional speakers. This is a practical solution for screenings, presentations, or watching movies outdoors. Thanks to the Bluetooth 5.4 module, you can also instantly connect the projector to external headphones or a more powerful audio system for an even more immersive cinematic experience.

Compact and ready to take anywhere

The projector features an exceptionally compact design, measuring 177 mm in height and 94.8 mm in base width. It weighs only about 400 g, making it easy to fit in a bag or backpack. The integrated handle on the base makes it easy to carry, and its lightweight construction makes it an excellent and practical solution for mobile use.

180° Rotating Design - Complete Freedom of Positioning

The 180° rotation feature allows you to freely project the image onto a wall, ceiling, or any other surface without the need for tripods or additional mounts. This is a practical solution, especially during evening screenings, when you can comfortably watch a movie while lying down, directing the image directly above you. The integrated stand with a handle further facilitates stable placement of the projector anywhere and quick adjustment of the projection angle to suit your needs.

Included:

- Projector
- Remote control
- Power cable
- User manual
