Aprašymas

CW Yeelight Yeelight Mercury C480 smart ceiling lamp

Yeelight Mercury C480 is a smart ceiling lamp with a sleek, timeless design, offering infinitely adjustable color temperature and brightness. Equipped with Moonlight mode, it provides a soft light conducive to relaxation and nighttime relaxation, and with its stable, flicker-free illumination, it guarantees comfort for the eyes and accurate color reproduction. It works with voice assistants and apps for Android and iOS, using Wi-Fi and Bluetooth 4.2 connection. Make your home a pleasant, atmospheric atmosphere with Yeelight Mercury C480!

Smart lighting in an elegant design

Yeelight Mercury C480 was created with modernistic homes in mind. The lamp offers exceptional reproduction of natural colors, making the colors look just like they do in real life. A color temperature range of 2700K to 6500K with infinite adjustment allows you to adjust the lighting to suit any situation - from warm, moody light to cool, energizing colors. And the 0-100% smooth dimming function gives you full control over the intensity of the lighting. With it, you can create the perfect atmosphere in any room, from a relaxing bedroom to a vibrant dining room.

Eye comfort and atmospheric ambience

A special Moonlight mode emits soft, gentle light, ideal for a night's rest or getting up in the middle of the night. This subtle lighting promotes relaxation and helps create a cozy atmosphere. The stable, slow-flickering light complies with IEEE standards (Institute of Electrical and Electronics Engineers, an organization of engineers and scientists who create and approve hardware standards), and therefore provides visual comfort and cares for the health of your eyes.

Smart control in many ways

The Yeelight Mercury C480 works with voice assistants such as Google Home, SmartThings, Mijia and Amazon Alexa for convenient remote control with simple commands. It also supports IoT platforms (Internet of Things, a system that allows various electronic devices to send and receive data - to and from other things and systems), and with Wi-Fi and Bluetooth 4.2 connectivity, you can control it from your Android or iOS smartphone. The
