Aprašymas

Euhomy BR001-89 70L beverage display refrigerator (black)

The compact Euhomy BR001-89 refrigerated display cabinet is a practical solution for storing beverages at the right temperature. With a capacity of 70 liters, it can hold a large number of cans and bottles without taking up much space. Temperature control, a glass door, and an intuitive control panel make the appliance convenient for accessing chilled beverages in various home and office spaces.

Adjustable temperature with digital display

The display is equipped with an electronic control panel with a clear display. It allows you to set the temperature in the range from 4°C to 10°C with an accuracy of approximately 1°C. This allows you to adjust the cooling to the type of beverage – cool carbonated drinks more strongly or set a higher temperature, e.g., for juices.

70-liter capacity

The interior of the refrigerator offers a capacity of 70 liters, allowing you to store many cans, bottles, and other beverages. Several shelf levels allow you to conveniently arrange your products, making it easy to keep things tidy and quickly find what you need.

Compact size and easy setup

Despite its large capacity, the refrigerator retains its compact dimensions – approximately 74 cm high, 43 cm wide, and 46 cm deep. This allows it to be placed under a countertop, next to a kitchen island, or anywhere else. Its small size means that the appliance does not dominate the space, while remaining a functional piece of equipment.

Manufacturer	Euhomy
Model	BR001-89
Color	black
Capacity	70 l
Temperature range	4°C – 10°C
Temperature control accuracy	±1°C
Dimensions	43 x 46 x 74 cm
