Aprašymas

Blitzwolf 100-inch BW-VS13 ceiling/wall electric projection screen

The Blitzwolf BW-VS13 is a projection screen designed for home theaters, conference rooms, and educational spaces. Its 100-inch diagonal and 16:9 aspect ratio provide the perfect format for watching movies, presentations, and sports broadcasts. The white plastic coating and 1.2 light reflection coefficient provide a bright and contrasty image, optimized for Full HD (1080p) content and compatible with 4K and 3D signals, provided that a suitable projector is used. Wireless remote control makes everyday use easy and allows you to conveniently adjust the screen to your current needs.

Easy wall or ceiling mounting

The screen can be mounted on both walls and ceilings – on concrete or wood. Regardless of the mounting method you choose, all you need to do is ensure there is enough free space for the screen to roll out freely.

Control without getting up

The built-in motor allows for smooth unfolding and rolling up of the screen using a 433.92 MHz radio remote control. You don't have to leave your couch to start watching – with one click, you can set the screen to the right position. Additional wired control ensures proper operation of the device, even when the remote control is not available.

Quiet operation and compact design

The lifting mechanism is extremely quiet – the noise level does not exceed 45 dB, which ensures comfortable viewing without interference. The high-quality motor shaft with a sealed rotating design translates into a long service life and trouble-free operation. When rolled up, the screen is 253.4 cm long and only 13 cm high, so it does not take up much space. The projection area is 221.4 × 124.5 cm, which corresponds to a full 100 inches in 16:9 format. The screen is powered by 220–240V (50 Hz), and the 2.6 m power cord allows for flexible equipment placement.

4-layer screen structure

The screen surface is made of a 4-layer composite material that ensures uniform structure, durability, and high projection quality. The use of a PVC layer, chemical fibers, and a light-reflecting coating improves contrast and color reproduction precision, which is crucial when displaying Full HD (1080p) content. The screen is also compatible with 4K signals and 3D content, enabling correct image display from compatible projectors. An additional advantage is the ease of cleaning the surface, which facilitates everyday use.

Matte surface and wide viewing angle

Thanks to its embossed matte surface, the screen reduces the impact of ambient light, increasing the brightness of the displayed image. A reflection coefficient of 1.2 allows for clearer details, better depth, and realistic colors. It is the perfect solution for both movies and multimedia presentations. The BW-VS13 screen provides excellent visibility at angles up to 160°, so all viewers, regardless of their location, can enjoy the same image quality. The material effectively reflects light, eliminating distortion even when viewed from the side.

Included

- Blitzwolf 100-inch BW-VS13 projection screen
- Mounting hardware kit
- Radio remote control

Manufacturer	Blitzwolf
Model	BW-VS13 100-inch
Screen size	100 inches
Aspect ratio	16:9
Viewing angle	160°
Light reflection coefficient	1.2
Material	Coated white plastic (PVC bottom layer, chemical fiber layer, reflective layer (coated/embossed), PVC surface projection layer)
Display area	2214 x 1245 mm
Folded size	2534 x 90 x 130 mm
Size when unfolded	2534 x 90 x 1725 mm
Voltage	220 V–240 V 50 Hz
Rated power	50 W
Power cord length	2600 mm
Net weight	12 kg
Gross weight	15 kg
Lifting control method	Remote control
RF remote control	433.92 MHz

Gross weight: 12200, Box length: 253,00, Box width: 13,00, Box height: 9,00, Net weight: 12000, GPSR Link: https://psr-assets.innpro.pl/it_accessories/sg_it_accessories_projectors_and_screens.pdf

Techninė specifikacija

Matmenys ir svoris

Matmenys (I × P × A)	253,00cm × 13,00cm × 9,00cm
Svoris	12,20kg
