overclocked 2587 MHz core clock, this GPU is built for the next generation of demanding titles. Experience stunning realism and incredibly high frame rates, powered by the latest NVIDIA architecture and revolutionary technologies like NVIDIA DLSS 4.

Next-Generation Performance and Architecture

The RTX 5070 delivers a significant leap in rendering capability and efficiency. Built on the advanced PCI Express 5.0 interface, it ensures maximum bandwidth utilization for seamless data flow. The unique EAGLE OC ICE design signifies high-speed performance wrapped in a visually appealing white aesthetic, perfect for customized PC builds.

- **12GB GDDR7 Memory:** Extremely fast memory architecture (192-bit bus) clocked at 28000 MHz for bandwidth-intensive tasks and resolutions up to 8K (7680 x 4320).
- **Overclocked Core Clock:** Reaches a boost clock of 2587 MHz, ensuring superior performance straight out of the box.
- **NVIDIA DLSS 4 Support:** Utilize AI-powered rendering and frame generation to boost frame rates significantly without sacrificing image quality.
- **PCI Express 5.0 Interface:** Provides double the bandwidth of PCIe 4.0, future-proofing your system.
- **Advanced Connectivity:** Equipped with 3 x DisplayPort 2.1a and 1 x HDMI 2.1b for high-refresh-rate 4K and 8K display support.
- **Active 3-Fan Cooling:** Ensures optimal thermal management and stable performance during extended heavy load sessions.

Efficient Cooling and Durability

The GIGABYTE EAGLE OC ICE cooling solution features multiple high-performance fans to maintain optimal operating temperatures even under heavy load. This active cooling system ensures consistent peak performance and extended product longevity, allowing gamers to maintain dominance during extended sessions. The durable components guarantee reliable operation for years to come.

GIGABYTE is a globally renowned leader in the technology industry, specializing in motherboards, graphics cards, and high-performance computing solutions known for their robust quality, innovative engineering, and exceptional durability.
