Pagrindinės savybės

- ✓ Premium modular base for Thrustmaster joystick (sold separately)
- ✓ Customization of a multitude of settings of the internal components: axis curve, resistance, travel and damping
- ✓ Quick and easy modification of the base, with adjustment of the stick's resistance without disassembly, thanks to external access points
- ✓ Scalable base with an extensive ecosystem of future accessories (additional grips, extensions, cams, springs, dampers...)
- ✓ Precision and control of the center point movements, the progressiveness and the resistance, via AXY (Accurate X&Y) technology
- ✓ Configurations of the base compatible with all types of aviation (military, civil, space and helicopter)
- ✓ Compatible with PC (Windows 10/11) and Plug & Play in the games DCS, X-Plane 11/12 and MFS 2020: the product is automatically recognized by the game

Aprašymas

Create your own piloting style with AVA (Advanced Versatile Aviation) — the new high-end Thrustmaster joystick base, customizable for each pilot and adaptable to any type of aviation.

AVA adapts to your style for subtle handling, and sensations that are tailored to you. Thanks to its all-metal mechanism, you can easily change the four functional elements of your joysticks: the axis curve, resistance, travel and damping. AVA's design was specially created for quick modification of all its elements, allowing for customization between flights, and on-the-fly adjustments.

Experience total control of the movements at the heart of the action, with precise piloting employing AXY (Accurate X&Y) sensors. Excellent for military, civil, space or helicopter piloting, the AVA base will adapt to your requirements and transport you into a world of simulation that's more realistic than ever before.

PILOT AT YOUR FULL POTENTIAL

Unleash your flying potential without any limits, thanks to AVA (Advanced Versatile Aviation) — the modular, scalable base for Thrustmaster joysticks.

AVA has been carefully designed to meet your needs and preferences, offering you a multitude of tailor-made configurations for all types of aviation.
