Empowering Creative Professional

Filmmakers & Video Editors

A 21:9 ultra wide viewing and high resolution visual performance is a “must” working tool for video editing and post production, it can see more than 16:9 display.

Colorists

Factory pre-calibrated to Delta E 2 color accuracy for industry-leading color fidelity.

Designers & Photographers

Truly precise color reproduction to bring out the details in photographs or digital artwork.

Exquisite Design

Immersive with Ultra-wide

To see more details and crystal clear image than ever through 3440x1440 resolution which is 2.5 times the resolution of Full HD displays, gives you more space to spread out your various work windows for more productive multitasking. The 3800R panel curvature ensures every point on the curved display is equidistant to your eyes, so you get a comfortable viewing when you are working.

Enjoy True-to-Life Color

PA34VCNV goes beyond industry color standards, providing 100% sRGB / Rec.709 coverage. In addition, 10-bit color depth enables more than 1.07 billion onscreen colors, bringing out the smallest details in photos.

Class-Leading Color Fidelity

Each ProArt display is factory pre-calibrated using a new three-scale process to guarantee industry-leading color fidelity. The display then undergoes stringent testing using ASUS advanced grayscale tracking technology to ensure smoother color gradations, better uniformity, and high color accuracy with a Delta E 2 color difference.

True Color,

Out of the Box

Color professionals rely on color-accurate displays to ensure that their creations look exactly as intended. Each PA34VCNV is Calman Verified and subjected to stringent, meticulous testing to ensure smoother gradation for assured color-accurate viewing and content-creation experiences.

Quick Color Gamut Adjustment

ASUS-exclusive ProArt Preset provides multiple color modes to suit different needs. PA34VCNV is compliant with the DICOM Part 14 standard to ensure smooth gradations and accurate identification of grayscale shading.

The USB-C®

That Does it All

The included USB-C® port enables superfast data transfers, DisplayPort connectivity, and 96-watt power delivery to charge laptops and other devices—all via a single cable. PA34VCNV also serves as a USB hub: any device connected to the monitor's USB ports gains access to other connected peripherals.

Expansive Connectivity

In addition to USB-C, ProArt display offers a myriad of connectivity options including HDMI®, DisplayPort™ (with daisy-chain support), USB Type-A, and additional USB-C downstream port for compatibility with a wide range of devices. DisplayPort allows users to daisy-chain multiple displays from a single video source, enhancing productivity. PA34VCNV even includes an RJ45 Ethernet port to provide connected devices with a stable Internet connection for more space saving and convenience. It also has pass-through port for the headphone jack input.

ASUS Eye Care Technology

ASUS Ultra-Low Blue Light Technology

The new hardware-based ASUS Ultra-Low Blue Light technology reduces potentially harmful high-energy blue light emissions while offering color performance that's better than monitors with software-only filtering solutions.

ASUS Flicker-Free Technology
