Aprašymas

DDPAI N5 Pro 4G Dash Cam

The DDPAI N5 Pro 4G is a dual-channel dash cam that allows you to monitor the area both in front of and behind your car, and the front camera supports recording in up to 4K resolution with HDR. The device features a 4G module, 5.8 GHz Wi-Fi 6, Bluetooth 5.4, and support for GPS, BDS, GLONASS, GALILEO, and QZSS positioning systems. It also features a 3-axis G-sensor, ADAS functions, a supercapacitor, and support for microSD cards with capacities up to 512 GB. This combination allows the N5 Pro 4G not only to record trip data but also to provide additional information related to driving and the vehicle’s location.

Detailed Footage from the Front Camera

The DDPAI N5 Pro 4G’s front camera can record in 4K resolution with HDR at 30 or 25 fps, providing a detailed view of the area in front of the car. A 3K mode at 60 fps is also available, which, thanks to the higher frame rate, provides smoother footage during dynamic driving. The F1.8 lens offers a

wide 143° field of view, so the camera captures a broad section of the road and allows you to record more events in front of the vehicle.

4G Connectivity and Fast Wi-Fi 6

The built-in 4G module expands the dashcam’s communication capabilities, while Wi-Fi 6 operating in the 5.8 GHz band ensures fast wireless data transmission. The model is also equipped with Bluetooth 5.4 and a GNSS module supporting GPS, BDS, GLONASS, GALILEO, and QZSS. Support for multiple positioning systems allows you to use location data, which serves as a practical supplement to the information recorded during your trip.

Driver Assistance Features

The DDPAI N5 Pro 4G uses a 3-axis G-sensor that detects G-forces and changes in vehicle motion. Built-in ADAS features include a forward collision warning and a driver fatigue alert, providing additional support while driving. The device’s capabilities can be further expanded with an optional radar module and the IPS energy management system.

Up to 512 GB of storage and a supercapacitor

The dashcam supports microSD cards with capacities up to 512 GB, allowing you to store a large amount of video footage without having to manage storage frequently. Recordings are saved in MP4 format using AI encoding.265 or H.264, while the supercapacitor used is designed to operate under the demanding conditions inside a car. The operating temperature range is from -20°C to 70°C.

Manufacturer	DDPAI
Model	N5 Pro 4G
Number of Channels	front + rear
Front Camera Resolution	4K@30 HDR / 4K@25 HDR / 3K@60
Lens	F1.8, 2G4P
Field of View	143°
Video encoding	AI.265 / H.264
Video format	MP4
Sensor	3-axis G-sensor
Storage	microSD card up to 512 GB
Wi-Fi	Wi-Fi 6, 5.8 GHz
Bluetooth	BLE 5.4
GNSS	GPS, BDS, GLONASS, GALILEO, QZSS
4G Module	Yes
Supercapacitor	Yes
ADAS	Forward Vehicle Departure Alert, Driver Fatigue Warning
IPS Power Management	Supported, optional
Radar Module	Supported, optional
Operating Temperature	-20°C to 70°C
Storage temperature	from -40°C to 85°C
Dimensions	102 × 62.5 × 31.3 mm
