'Spectral White' edition introduces a premium, clean look to your PC build, perfect for themed setups where style and synchronization are paramount.

Thanks to the factory overclocked (OC) settings, the Radeon RX 9060 XT OC pushes core clock speeds beyond standard levels, providing a significant boost in gaming performance right out of the box. The advanced lighthouse cooling solution is specifically tailored to keep temperatures low even under intense load, maintaining peak efficiency while showcasing its distinctive white shroud and fan design.

Key Specifications and Benefits:

- **Exceptional Overclocked Performance:** Factory overclocked Radeon RX 9060 XT GPU core for enhanced speed, delivering superior gaming power and responsiveness.
- **Massive 16GB GDDR6 Memory:** Ample VRAM capacity suitable for future-proof gaming at high resolutions and running intensive creative applications simultaneously.
- **Spectral White Aesthetic:** Unique, clean white design perfect for custom PC builds prioritizing modern styling and visual appeal.
- **Advanced lighthouse Cooling System:** Efficiently dissipates heat across critical components to ensure stable, reliable performance and longevity during prolonged, heavy usage sessions.

POWERCOLOR is a renowned manufacturer dedicated to producing high-performance graphics cards for enthusiasts worldwide, recognized for innovation in cooling technology and outstanding custom design.
